

# A BETTER LIFE THROUGH AUTHENTIC CONNECTION

## Savelio

Hi, my name is Savelio Sia I became a mentor because I believe that I have the values and beliefs that can make a positive impact in someone's life. I like to teach people about life skills: respect, caring, budgeting. I'm also a believer in mental and physical health well being. I am a caring and honest person but I'm also fun to be around. I like to see the positive in any situation and I'm always looking for new experiences to try.

You should pick me as your mentor if you want someone that is honest, empathetic, reliable and care's about your life. I come from a huge family of 10 and believe that gives me the foundation and fortitude that is required to be a great mentor.
