

A BETTER LIFE THROUGH AUTHENTIC CONNECTION

Zack

Hi, my name is Zack

I became a mentor because my main passion is making people feel comfortable and empowered to achieve their goals in an easygoing environment. I like to help people by listening to them and discovering what they want in life. I will also try to find their strengths and work to help them realise their potential.

You should pick me as your mentor if you're looking for a mentor who will help you gain confidence in the community, work towards your goals and have a fun time doing it.
